

SURFACE PROCESSING

mvt AG offers a comprehensive, economically-priced range of sapphire nozzles for the most varied of applications in the field of surface processing. All of our nozzles consist of a stainless steel nozzle body with a sapphire orifice. Their special design gives them a high degree of stability and safety. Special designs and customer-specific solutions are available on request.

PROPERTIES AND ADVANTAGES

- ▶ Application up to max. 3000bar and 24l/min
- ▶ For cutting:
 - Reinforced concrete up to 1 m thickness
 - Steel up to 80mm thickness
- ▶ Hardened mixing chamber for long life
- ▶ Water nozzle interchangeable
- ▶ Water nozzle and abrasive nozzles are factory pre-centered
- ▶ Water nozzle with sapphire
- ▶ Abrasive nozzle Carbide
- ▶ All parts are also available individually as replacement

BENEFITS

- ▶ Long life
- ▶ Constant jet quality
- ▶ Precise cutting accuracy
- ▶ Precise cut
- ▶ High cutting performance
- ▶ Excellent price-to-performance ratio
- ▶ Swiss Quality

APPLICATION

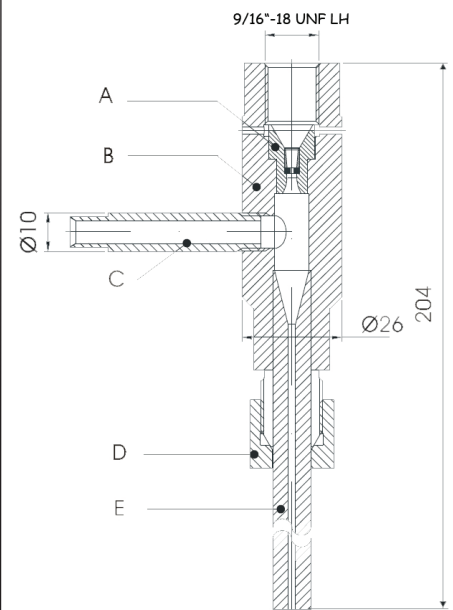

- ▶ Stone, marble, granite, ceramics, concrete, plaster, etc.

Ø Nozzle	Order. no.	l/min at 2000 bar	l/min at 2500 bar	l/min at 3000 bar	Focusing tube Ø
