

Sapphire insert nozzle 952

Properties and advantages

- Long lifetime
- Constant jet quality
- High-power and focused water jet
- Needle jet with high energy density
- Easy to install and disassemble
- Swiss Quality

Applications

- Construction industry
- Mining
- Concrete demolition
- Surface treatment

Description

The nozzle type 952 was designed for hand lances. The nozzle is characterized above all by its service life, efficiency and quality and can be used up to an operating pressure of 3000 bar. Due to its advantageous shape, this nozzle can easily be mounted on a hand lance with external cone.

The heart of the nozzle, is the sapphire, and its completely manufactured by mvt AG, which guarantees a uniform and high quality. All sapphires are checked for scratches, cracks and flow.

This product is compatible with the following brands or products:

- Type I

ART. NO. (1)

31228._ _

CHARACTERISTICS	TYPE
	952
Operating pressure (bar)	max. 3000
Operating temp. (°C)	max. 150°

Instructions

When manually operating high pressure guns and lances the repulsive force on the axis should not exceed 250N! If the repulsive force exceeds 150N, a support / body armour is required!

	< 150 N
	< 250 N
